MESSAGE

FROM THE

PRESIDENT OF THE UNITED STATES,

TRANSMITTING

A communication from the Secretary of State, relative to claims against France for spoliations prior to July 31, 1801.

MARCH 17, 1886.—Read and referred to the Committee on Claims and ordered to be printed.

EXECUTIVE MANSION,
Washington, March 17, 1886.

To the Senate of the United States:

I transmit herewith a communication from the Secretary of State, being a revised list of papers on file in the Department of State touching the unpaid claims of citizens of the United States against France for spoliations prior to July 31, 1801.

GROVER CLEVELAND.

DEPARTMENT OF STATE,
Washington, March 17, 1886.

To the President:

The Secretary of State submits the accompanying revised statement concerning the papers on file in the Department of State touching the unpaid claims of citizens of the United States against France for spoliations prior to July 31, 1801, for transmission to the Senate.

In compliance with a resolution of the Senate of February 11, 1884, directing him to communicate "in brief any information in his possession touching the French spoliation claims, the names of vessels destroyed, whether or not there is evidence touching said claims filed in his Department, and in what cases there is evidence so filed, together with such other matter relating to this subject as he may think proper," the Secretary of State, on the 3d July, 1884, reported a list containing the information desired, which was printed as Senate Executive Document No. 205 of the publications of the Forty-eighth Congress, first session.

That list comprised the data drawn from the papers filed in this Department relative to the class of claims in question which had not been presented to any one of the three commissions, which were charged with the examination and adjudication of claims of a similar nature, as

well as the data drawn from the records and files of those commissions; that is to say, the commissions established under the conventions concluded April 30, 1803, and July 4, 1831, between the United States and France, and the treaty concluded February 22, 1819, between the United States and Spain.

The files of each of the commissions under the convention of July 4, 1831, and the treaty of February 22, 1819, were deposited in this Department, classified in two series; one of claims "allowed" and the other of claims "disallowed," all forming 438 folio volumes. Upon compiling the first list, owing to the brief period permitted for the work, it was impossible to examine each of the disallowed cases in comparison with the records of the two commissions, and, as the papers bore no marks to indicate the final action of the commissioners upon them, it was necessary to rely upon that classification as accurate; therefore all the papers of the series designated "disallowed" were analyzed and the essential particulars were noted.

After the publication of that list, a careful examination of the journals and books of award or dockets of the two commissions was undertaken with a view not only to correct any errors and supply any omissions which affected the same, but to ascertain the reasons assigned by the commissioners for disallowances. It was discovered therein that claims on account of the spoliation of eighty-six vessels which had been allowed had been erroneously classified as disallowed; in certain instances, cases which had been dismissed by the boards on their first presentation were on a second admitted and discharged. In other cases claims had been divided; those of the owners of vessels, or the owners of cargoes had been respectively allowed or disallowed, compensation for both vessels and cargoes in such cases not having been authorized.

Such cases have been omitted from the present list.

Since the publication of the former report, there have been deposited in this Department certain papers relative to these claims from the files of the Senate and of the House of Representatives. Those of the Senate were found to possess no essential information; whatever important data those transferred from the House of Representatives contained, have been noted in this revised list. From the United States consulate-general at Paris a small number of papers has been obtained, and the important particulars extracted therefrom appear also herein.

The facts collected by the Hon. James O. Broadhead and Mr. Somerville Pinckney Tuck, special agents appointed to make investigations in France, have also been formulated in this list under the names of the persons or vessels to which they relate.

Whenever the records of the three commissions referred to afford statements of reasons for the rejection or disallowance of claims, notes of such statements have been added to other facts descriptive of the respective cases.

Respectfully submitted.

T. F. BAYARD.

REPORT UPON THE PAPERS ON FILE IN THE DEPARTMENT OF STATE WHICH RELATE TO CLAIMS OF CITIZENS OF THE UNITED STATES AGAINST FRANCE CAUSED BY SPOLIATIONS PRIOR TO JULY 31, 1801.

In pursuance of a resolution of the Senate of February 11, which is understood to refer to the claims incurred prior to July 31, 1801, the accompanying list has been compiled. It is believed to contain all the essential facts of record in the original papers relative to unpaid claims preserved in this Department. It comprehends the information asked for by the Senate, arranged in three sections:

First. A list of the claimants in alphabetical order, in which all the facts are stated, that is to say, the names of all persons who have alleged losses either on account of the capture of vessels, of their detention in French ports by embargo, or of the seizure and confiscation of cargoes, or of insurance. It also gives the places of residence of such persons, the relation they held towards the claims, the names of the vessels involved, the names of the masters of the vessels, and the amounts of indemnity claimed, whenever those facts were afforded by the records. In every case where evidence in the support of a claim exists a statement to that effect has been made.

Second. A list of the vessels concerned, with references to the first list.

Third. A list of the persons incidentally mentioned in the papers, with like references.

While this list contains an accurate abstract of the facts preserved in the records, it does not pretend to give them in an absolutely digested form. It is surmised that some few cases were presented to the Government by different agents and in different forms several times, and that they may appear more than once in the list. The task of identifying such claims and of harmonizing the papers appertaining to each would be difficult, even had there been the necessary time to devote to it. Whenever such duplication of statement of a claim could be indubitably ascertained it has been entered but once.

The Senate resolution specifies that information should be provided "whether or not there is evidence touching said claims filed in the Department, and in what cases there is evidence so filed."

This requirement has been met, it is assumed, by the simple statement of the existence of evidence in the entries of the cases on the first list. As to the extent and value of the papers offered in testimony, no comment has been attempted. In this regard, the remarks of Mr. Clay in transmitting the former list, January 22, 1827, may be repeated:

> In answer to the inquiry of the committee whether any and all the evidence to support the claims be in this Department, and, if not, where it could be obtained, I have the honor to state that, without a full and particular examination of that which has been used in forming the present list, no conjecture can be hazarded (if it were proper to make one) as to its sufficiency in regard to the claims to which it relates.

Even were a list of all such proof as is on file submitted, it would convey no adequate information on which a just opinion as to its competency could be based.

Appended is a list of certain contemporary memoranda and of official documents which are to be regarded as to some extent authoritative, and the details of which have been inserted in the list of claimants.

LIST OF CONTEMPORARY MEMORANDA AND OFFICIAL REPORTS CONCERNING FRENCH SPOLIATIONS ON FILE IN THE DEPARTMENT OF STATE.

1801, Oct. 25. "List of all the judgments rendered by the council of prizes from its installation to the 1st Brumaire, X (October 25, 1801), inclusively, in the cases of American vessels and their cargoes." (The origin of this paper is not known.)

1804, July 17. "Extract out of an official list received from the secretary-general of the council of prizes at Paris of American vessels captured by French privateers and carried into Spanish ports." By J. J. Packaud, chancellor of the American commercial agency at Paris.

1856, Mar. 12. "Memoranda of papers concerning French spoliation claims found among the miscellaneous files of the United States legation at Paris, with John Y. Mason's despatch, No. 125." (This despatch contains statements that the records at the legation at Paris do not contain papers concerning certain claims for French spoliations.)

LIST No. 1.

ALPHABETICAL LIST OF CLAIMANTS AGAINST FRANCE ON ACCOUNT OF SPOLIATIONS PRIOR TO JULY 31, 1801.

EXPLANATORY NOTE OF DATA COMPRISED IN THIS LIST AND OF TERMS EMPLOYED.

Each claim is entered under the surname of the claimant when an individual, and that of the first person mentioned in case of a firm. The names of all other members of a firm are to be found in list 3, from which references are made to this list.

The facts as follows are cited when afforded by the records:

1. In left-hand margin the dates when claims were incurred.
2. Following name of claimant, his residence.
3. His character in relation to claim, *i. e.*, whether owner, shipper, underwriter, etc.
4. Nature of claim.
5. Name of vessel.
6. Name of master of vessel.
7. The names of places in parentheses indicate where vessels were carried after capture, where condemned, or where records exist of the same.
8. Character of papers on file, or the source from which the data has been obtained, viz: "H. R. files" indicate those papers received from House of Representatives; "B. and T.'s report" or "B. and T.'s appendix" indicate the information obtained during their investigations in France in 1885 by Messrs. Broadhead and Tuck, special agents appointed under section 5 of public act No. 13, approved January 20, 1885, and contained in their report (Senate Ex. Doc. No. 30, Forty-ninth Congress, first session). The notes "U. S. consulate, Paris," indicate the papers forwarded from the consul-general's office, under their respective numbers.
9. When the papers are of record among the claims disallowed by either of the commissions established under or in consequence of the conventions between the United States and France of April 30, 1803, or of July 4, 1831, or with Spain of February 22, 1819, the fact is indicated by the following: France, 1803; France, 1831; and Spain, 1819.
10. The remarks "not received," "rejected," "withdrawn," "suspended," etc., relate to the disposition of respective claims, according to the records of the commissions in whose files papers concerning them have been found. "Insufficient testimony" and "reasons not stated" were the terms employed to express the reasons for disallowance of the claims referred to in the records of the commissions by which they were considered. The term "no record" indicates those claims which were not presented to any of the three commissions.
11. The amount of claim.
12. The word "evidence" indicates that testimony exists in addition to the memorials or petitions of claimants or their agents.
